

Parata® ATP® 2 Pouch Packager

Key Features

Scalability: Easily grows as your packaging program does - 64, 128, 192, 256, 320 in one cabinet size. Two add-on units expand capacity to 400 and 480 canisters.

Continuous Operation: The unique dual tray system allows you to continuously run the packager without interruption while the swappable lower packaging unit virtually erases downtime.

Intelligent Software: Flexible and easy to use, ATP 2's software ensures security at user login with biometric scanning, offers a wide range of reporting, and boasts a drag-and-drop editor to customize pouch design.

Variable Pouch Sizes: Four pouch sizes, including a narrow unit-dose size, allow more flexibility in providing a solution to any patient population.

Configurations	64, 128, 192, 256, 320, 400, or 480 canisters	
Canister Capacity	350 cc (approximately)	
Pharmacy Software Integrations	More than 70
