

HDStock™

High-Density Storage

HDStock™ — The pharmacy of the future, today.

HDStock, by TCGRx, is a precision-engineered, high-density storage product line that will help your pharmacy become more organized, reduce your inventory footprint, and speed up your script-filling process. HDStock has been specifically designed to store medications, paying special attention to ergonomics and functionality. The result is a completely logical storage system that's extraordinarily convenient to use. No other system offers you drawers that can store more items within the same space.

Why HDStock?

- Reduced footprint and reduction in inventory
- Less walking - Faster script filling
- Clean, modern and organized appearance
- Promotes first-in, first-out inventory reduces expired medications and open bottles
- LED lights on workstations increases visibility and is more ergonomic
- Fixtures are mobile for future re-configuration as pharmacy needs change
- Increased work surfaces while reducing storage footprint
- Unique divider system reduces the risk of errors

HDStock™ — More space. More time. More profit.

TCGRx's HDStock storage solutions improves efficiency and optimizes pharmacy space. This allows faster prescription filling and creates space for new pharmacy services.

HDStock's uniquely tailored combination of high density storage and compact workstations means more usable space in your pharmacy and more efficient, orderly processes.

Shrink your storage space when using HDStock solutions.
The right layout makes it easy to deliver a greater number of services more efficiently than ever.

The modern, clean design and improved stock organization of HDStock makes your pharmacy more efficient and improves its appearance, which enhances the total customer experience.

High Density Cabinets

HDStock Cabinet provides the most medication storage per square foot. It is excellent for all bulk medications including liquids. This can also be used for hazardous med storage.

Organization

Clear clips hold medication shelf label to identify meds. Drawer dividers separate meds and sub-dividers segregate open bottles.

Security

Manual locks prevent unauthorized access to Controls or high-dollar medications.

Clean

Steel mesh drawer bottoms reduces pill dust falls to the floor, reducing irritants and contamination. Withstands bleach or H₂O₂ cleaning.

HDStock™

Vision 1 drawer front option (above)

Vision 2 drawer front option

HDStock™

Workstations provide high density storage and a counter-top for workspace. Speed Shelving above the counter are for fast moving meds and the M Drawers below are for bulk storage.

Available in 1-, 2- & 3-bay configurations

Workstations

Speed Shelves

Provide all the benefits of HDStock Speed Shelving with much needed work space.

Ergonomic

LED lights enhance visibility on the counter-top work surface. The large bottom drawer and sloping Speed Shelves minimize bending and reaching.

M Drawer Storage

Under the counter-top, medicines are stored and organized exactly as in the High Density Cabinet. Dividers keep different items separate and double-height drawers can be used for storing large items. A storage option for a diverse range of products and consumables—with the added benefit of a closed system keeping contents free from dust.

Speed Shelves

Speed Shelves store the pharmacy's fastest moving medications. The 2-Bay stores up to 180 medications or 70% of Rxs. The 3-Bay stores up to 270 medications or 80% of Rxs.

Efficiency

Speed Shelves are designed for the compact and neat storage of fast moving medications.

Organization

Durable powder coated dividers clearly separate different meds. The dividers can be easily set at a variety of widths to store differently sized packages. Sub-dividers place hold the open bottle in front.

Inventory

The Speed Shelf pulls down to for stocking from the back; facilitating First-In – First-Out inventory management.

Available in 2- & 3-bay configurations

High Profile

The High Profile is a marriage of the Speed Shelf and the Cabinet drawer storage.

Available in 1-, 2- & 3-bay configurations

Speed Shelves

Provides all the benefits of HDStock Speed Shelving with the high density storage of the M Drawer.

M Drawer Storage

More drawers than a workstation, but with the addition of speed shelves. A storage option for a diverse range of products, with the added benefit of a closed system keeping contents free from dust. Dividers keep different items separate and double-height drawers can be used for storing large items.

Bulk Shelving

The Bulk Shelving fixture provides fixed shelves for bulk box storage such as pre-pack unit dose liquid cups, boxes of vials, IV bags, etc.

Adaptable

If your workspace requirements change, you can easily rearrange the flat shelves to different heights.

Quality

All frames and flat shelves are made of powder-coated steel that guarantees an extremely long life.

Strength

Depending on the fixed shelf selection, shelf load capacity is up to 55 pounds.

Available in 1-, 2-, and 3-bay configurations

HDStock™

HDStock™ Expand Your Business Without Expanding Your Space

TCGRx has an HDStock high-density fixture solution for all your storage needs, regardless of your pharmacy's footprint. The six different fixture types can address any space constraints and workflow.

16 traditional =

1 HDStock Cabinet

Traditional bookshelf style fixtures create inefficient workflow, waste space, and detracts from your pharmacy's professional image.

HDStock creates new space in your pharmacy to enhance your revenue while improving efficiency and workflow.

Carousels

Carousels are excellent for unit dose pre-packed items, as well as unit of use in all pharmacy settings. The small or large carousels maximizes storage in corners and allow multiple techs to fill simultaneously.

Multiple Access

360° access to products with rotating shelves enables efficient and simultaneous picking or filling from different sides by multiple users.

Inventory

Easy restocking by opening a gap between storage segments, which are held together with patented magnetic mechanism. Supports the 'first-in, first-out' principle as you stock the sloping tray channels from the back.

Add Beacon® and Gain Inventory Management

Upgrade your HDStock fixtures to Beacon, a one-of-a-kind inventory management system that integrates with your pharmacy information system. Using barcode-driven technology, Beacon tracks your entire formulary from the bottle, down to the pill level. Beacon's extensive reporting capabilities provides information on excess inventory, soon to expire meds, inventory cost and more; all the information to manage your inventory.

Why Beacon?

- Reduction in inventory and expired meds
- Quicker fill times with improved accuracy
- Management of generic swaps
- Full perpetual inventory at-a-glance
- Control medication handling
- Increased inventory turns
