

# SmartCardRx™ Multi-Dose Blister System

## Key Features

**Accurate:** SmartCardRx's barcode-verified system assigns trays to a patient order and certifies the correct NDC has been scanned. Light-to-fill guidance ensures the right medication and strength is fulfilled for the right patient.

**Efficient:** Fill up to four multi-dose cards in one tray enabling weekly, bi-monthly, and monthly cards. Stackable trays optimize pharmacist verification or tech-check-tech workflow.

**Affordable:** SmartCardRx gets you started with adherence packaging for your pharmacy with a low-cost solution that yields immediate gains in patient outcomes.

---
