

Parata® ATP 2 Duo™ Pouch and Blister Packager

Key Features

Blister and Pouch Packager: ATP 2 Duo is a multi-med and single dose system to streamline your manual multi-dose blister filling process and offers a pouch packaging solution - all in one.

Swappable LPU: The easily swappable Lower Packaging Unit (LPU) enables quick changes between packaging modalities.

Scalable Design: Use one, scalable machine to fill both blister cards and pouch packages with the ability to manage more inventory as your business grows.

Trusted Technology: ATP 2 Duo features mature automation technology with the added ability to incorporate blister, improving workflow and freeing time for pharmacy teams.

Capacity

Configurable capacity for pouch packaging allows for growth.

Standard Configuration

64 to 480 canisters

Pouch Sizes

- Spoolers and Winders

Pharmacy Software Integrations

ATP 2 Duo integrates with 100+ host systems

Network Requirements

Static IP address

Power Requirements

120V/15 Amps/60Hz

Parata® ATP 2 Duo™ Pouch and Blister Packager

6x9 Multi-dose blister cards fit into med carts configured for standard unit dose cards to reduce med cart changes. Choose between two card styles.

Switch between blister and pouch filling with the swappable lower packaging unit (LPU) while using the canisters you've already loaded.

Choose between four pouch sizes.

Biometric scanning for user login.

Create labels using drag and drop design.

Continuous improvement reporting for inventory management and usage.

Easily dispense high-volume half-tabs using the half-tab canisters.

Universal canisters save time and costs for new meds and reduced tray fills.

SmartCardRx station optimizes pharmacist verification and prevents wrinkling and misalignment with the easy-to-use sealing station.
