

BD Vmax 160

The only end-to-end*
unit-of-use automation
system for centralized
pharmacy fulfillment

*From replenishment to dispensing in an integrated central fill conveyance system

Unit-of-use prescriptions are rising. So are pharmacy labor costs.

Pharmacies need new automation solutions to keep up with today's market.

23%+

of central fill dispense volume is unit-of-use¹

Automating unit-of-use fulfillment maximizes efficiency gains from the central fill model

33%+

increase in pharmacy tech wage growth since 2015²

High labor costs require pharmacies to make the best use of their staff's time

214%

surge in GLP-1 prescriptions in 2023³

Rise in cold-chain, unit-of-use volume adds complexity to workflows

Turn growing unit-of-use demand into an opportunity with centralized pharmacy fulfillment and smart automation solutions from BD.

Introducing BD Vmax 160: the only end-to-end unit-of-use automation system for central fill

Do more with your staff's time by streamlining every step, from replenishment to dispensing, with true walkaway automation that enables 24/7 optimization of ambient and cold-chain inventory for boxed medications.

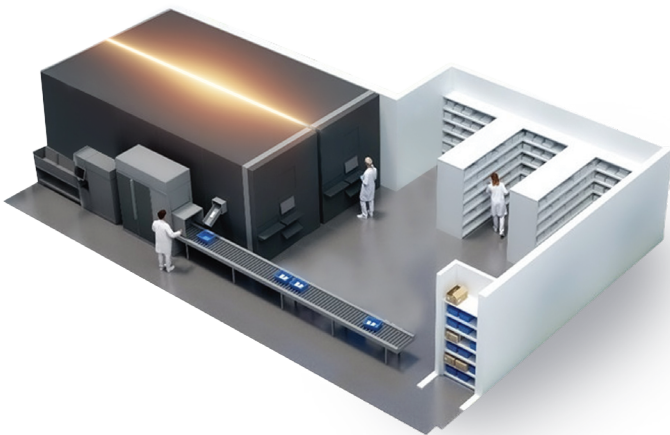

Fully automated workflow

Automating unit-of-use fulfillment empowers your staff to focus on clinical tasks while confidently meeting the fast-growing demand for specialty medications.

Seamless integration into central fill

BD Vmax 160 integrates with BD Parata™ Complete Connect™ to automate unit-of-use fulfillment on the central fill line and provide real-time operational data on a unified dashboard.

Transform prepackaged medication fulfillment in central fill with BD Vmax 160

Reduce labor-intensive unit-of-use tasks, so staff can focus on more value-added work

Get results with proven, flexible automation that is built for reliable performance over time

Ensure patient safety and reduce drug waste with reliable automation and tracking capabilities

Fulfill high-value unit-of-use medications reliably to support revenue growth and ROI

Cut manual dispensing by 80%
with BD Vmax 160 in central fill.⁴

Purpose-built automation features that drive efficiency and compliance

Automated replenishment

Enable overnight replenishment to free up daytime capacity with BD Vmax EasyLoad.

- <0.2% stoppage rate⁵
- 3-second loading time per tote for replenishment⁴

Automated labeling

Combine your dispensing and labeling workflow to eliminate time-consuming manual tasks.

- Minimize manual errors through consistent label application⁵
- Meets labeling requirements for all 50 states

Cold-chain capability

Streamline cold-chain workflows. Ensure proper storage. Improve staff satisfaction.

- Designed for 2–8°C environment
- BD Vmax 160 can operate within a 3rd party refrigerator
- Last mile tracking supports drug integrity through BD Parata Complete Connect™ integration with VPLRx

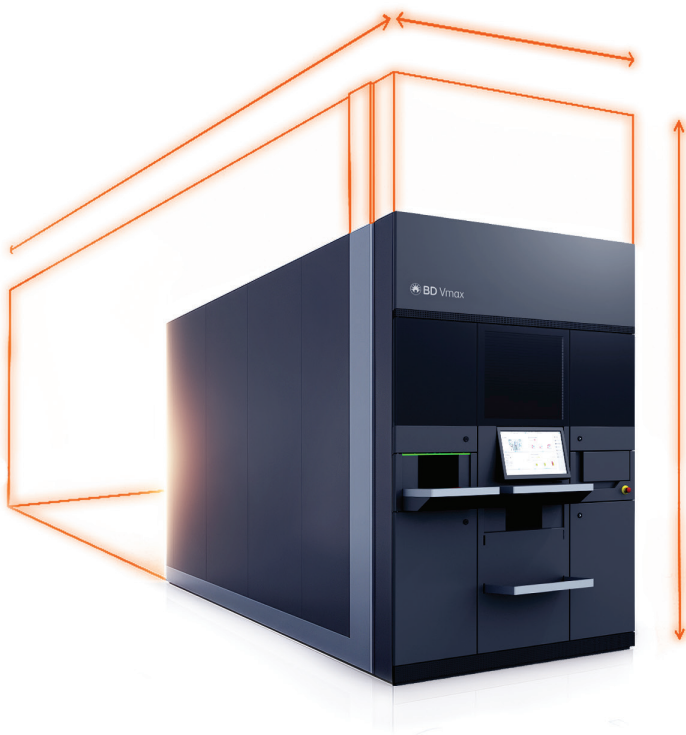

Smart expiry prioritization

Automatically prioritize dispensing by expiry date to reduce waste, protect revenue, and support compliance.

- Expiry date automatically detected and tracked from input to dispensing
- Prevents dispensing of expired medications
- Manual NDC entry also available for flexibility

Flexible configurations to fit **your unique** central fill needs

Tailor your automated solution to meet your specific needs with multiple size and shelving dimensions. Additional customizations include clear glass panel installation and your choice of black or white color options.

Core size options

Width	Height	Length
Standard: 5.3 ft (1.63 m)	Standard: 7.4 ft (2.25 m)	Small: 18.2 ft (5.56 m)
	Vaulted: 11.5 ft (3.52 m)	Medium: 24.3 ft (7.42 m)
		Large: 34.0 ft (10.36 m)

Custom sizes available at additional cost.

With **2 picking heads**, you can increase dispensing and replenishment throughput as needed.

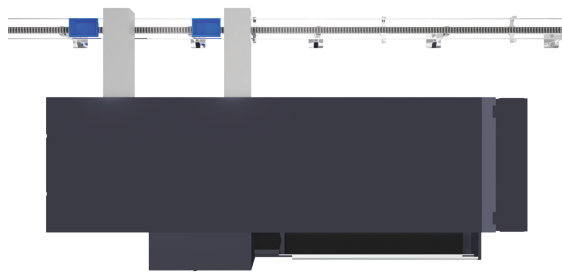

Available modes

- High-throughput dual dispensing
- High-throughput dual replenishment
- Simultaneous dispensing and replenishment

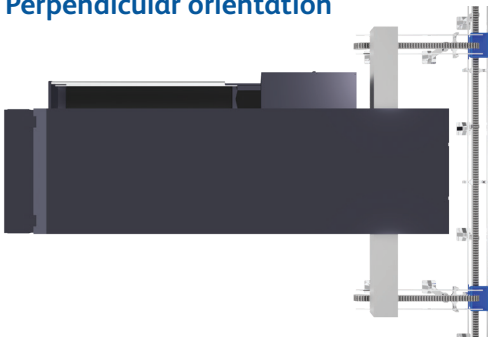

Lay out your central fill pharmacy your way

BD Vmax 160 can be set up as **parallel** or **perpendicular** to the central line conveyance.

Parallel orientation

Perpendicular orientation
