

Enterprise Medication Management Solutions

Empowering Pharmacy Excellence

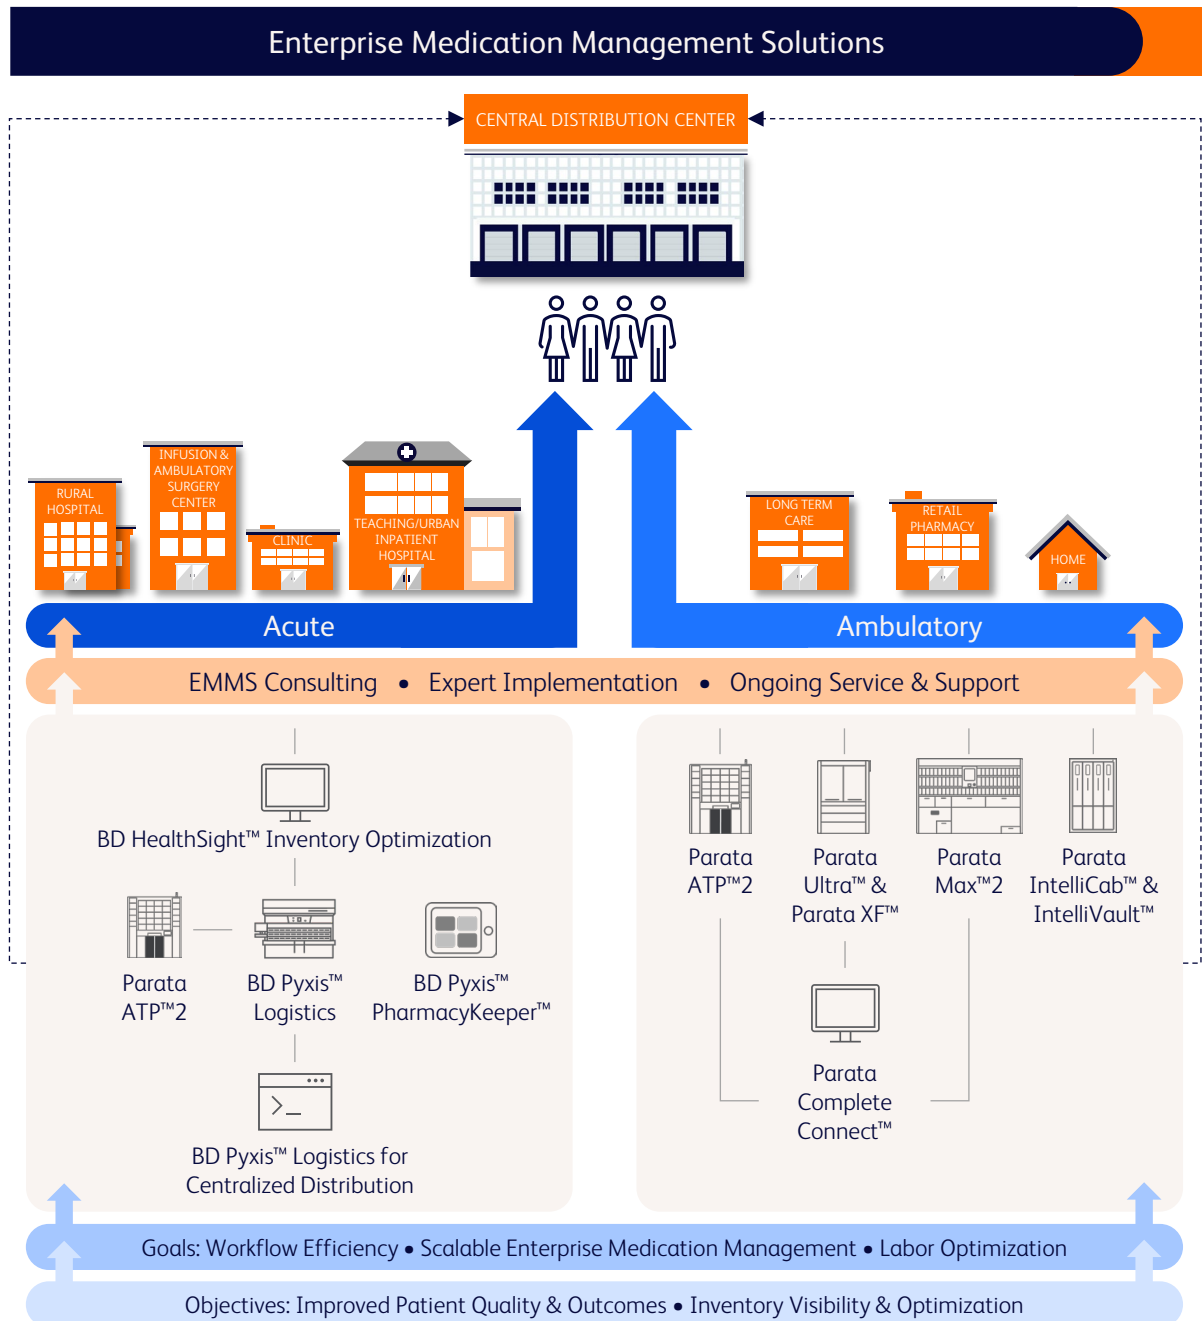

Enterprise Medication Management Solutions

Experience connected medication management with our suite of Enterprise Medication Management Solutions (EMMS), tailored to help optimize patient care across diverse acute and ambulatory pharmacy settings. With our solutions, we help you deliver the right medications, at the right time, to the right patient to help improve outcomes and minimize costs.

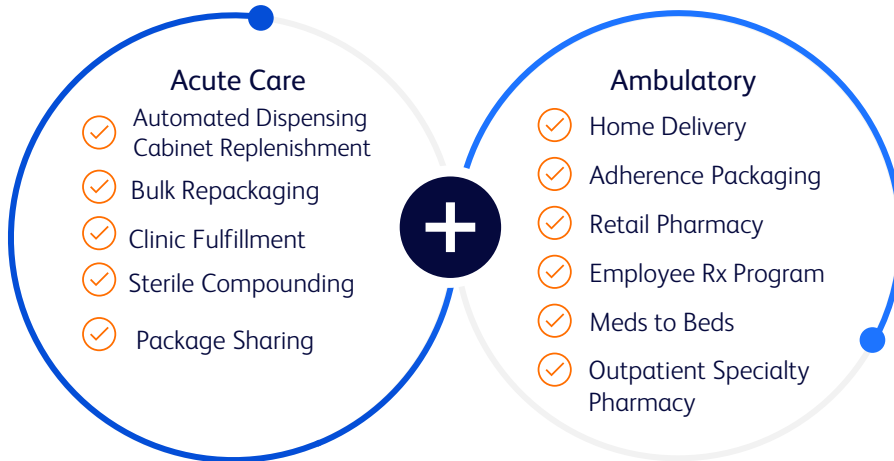

Comprehensive Solutions Across the Care Continuum

Our centralized solutions allow health systems to manage medications wherever the patient goes, from acute care settings to home-based care. Whether you need help to enhance operational efficiency, improve medication safety, or have a goal of higher patient adherence, we have you covered.

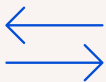

Enterprise Medication Management Solutions

A centralized pharmacy solution from BD spanning the acute and ambulatory care continuum.

Why Our Enterprise Medication Management Solutions is the Right Choice

We are committed to supporting safety at every step, advancing streamlined systems, and providing expert guidance through our suite of Enterprise Medication Management Solutions.

Integration

Our BD integration engineers help to drive integration efforts for your EHR systems and healthcare technologies.

Scalability

Our BD solutions help adapt to your requirements and provide you with the right tools as you continue to grow.

Support

Our support teams are with you every step of the way to help guide you through implementation and ongoing optimization.

Implementation

Our dedicated BD implementation project managers strive to deliver a seamless and efficient installation of your solutions with minimal disruption to your operations.

Cybersecurity

BD designs our products with cybersecurity in mind to help protect your sensitive information to align with industry regulations.

Consulting

Our BD pharmacy consultants will partner with you to help evaluate your pharmacy's needs and provide recommendations on automation, layout, and workflow.

Transform Your Enterprise Medication Management Today
