

# Parata Max<sup>®</sup> 2 High-Speed Vial Filling Robot

Max 2 offers the highest accuracy, speed, and output available at the lowest cost per prescription.

## Key Features

**Continuous Operation:** Two-sided design separates inventory and dispensing. Max 2 continues to run while you replenish vials, caps, and drugs. Max 2's low-touch operation is largely attributed to its ability to cap and stack filled vials.

**Verification Camera:** An internal camera captures an image of every filled vial for easy verification and record-keeping.

**Built-In Automated Cell Calibration:** Intelligent software enables on-demand, accurate cell calibration on site - no guess work, no matter the operator - avoiding costs and delays of cell exchanges.

**Quiet Notification Lights:** Color-coded LED lights let you know when to replenish vials, caps, and labels - before you run out.

**Internet of Things Connection:** Parata Pulse keeps an eye on the health of your Max 2 for reliable reporting and business efficiency. Request help from Parata right from Max 2's touchscreen without ever picking up the phone.

Rx Volume Automated	Up to 80% of oral solids on average
Unique NDC Cell Capacity	Configure from 111 (22 standard cells with 89 super cells) to 200 standard cells
Standard Configuration	156 standard cells and 22 super cells
Storage Capacity	232 completed vials stored before requiring attendance
Accuracy	100% accurate for drug and dose when proper processes are followed by the pharmacy

Optional Complements	Patented locking drug cells. Cell Secure row locking device. Vuca MedsOnCue QR codes.
Certification	UL GREENGUARD Gold Certification for indoor air quality
Pharmacy Software Integrations	Parata integrates with 100+ host systems
Certified Vial Providers	Altium Healthcare, Berry, Centor/Rexam, and Pharmacy Lite

Network Requirements	One Ethernet RJ-45 jack and one IP address on local network
Power Requirements	120V, 20A, 60Hz with one dedicated NEMA 5-20 receptacle located in the ceiling above the unit

Monitor status from across the room with color-coded LED lights to quietly let you know when Max 2 needs attention.

Collect and store an image of every filled vial for accuracy and safety.

Overflow bin and exception carousel allow Max 2 to keep running even when shelves are full or scripts require review.

Navigate workflow with intuitive touchscreen and software, on-demand access to training, documentation, and service.

Quickly swap NDCs and add new drugs with intelligent, built-in cell calibration.

Enter all unique NDC information with one, quick scan using the new 2D barcode scanner.
