

Parata™ Solutions Overview

Parata™ offers solutions **to support every pharmacy setting.** Whether you're looking to grow your adherence program or centralize your filling operations, Parata™ has the most comprehensive, scalable pharmacy automation profile to help you reach your goals.

Parata™

Explore Our Solutions

Vial Filling Solutions

Parata™ Max™ 2

Automates labeling, counting, dispensing, capping, and sorting of oral solid medications.

Pouch & Inspection Solutions

Parata™ PASS™

Easily synchronize medications, making medication management easier for patients and staff.

Parata™ ATP™ 2

Customizable unit- and multi-dose pouch packaging.

Parata™ Perl™

Automate pouch verification process and reduce pharmacist labor.

Parata™ InspectRx™

Blister Card Packaging Solutions

SynMed™ XF

SynMed™ ULTRA

Diversify your offerings with blister packaging. SynMed packagers are unit and multi-dose capable, card agnostic and can fill up to 90 multi-dose cards or up to 180 unit dose card/hour.

Pharmacy Design & High Density Storage

HD Stock™ Cabinet

Organize your workflow with highly configurable and durable shelving.

Central Fill Solutions

Centralized Filling

Consolidate inventories, reduce carrying costs and expired meds, centralize purchasing with or without conveyors.

Will Call Solutions

Parata™ Intellicab™

Streamline your will call process and transform the customer and staff experience.

Controlled Substance Management

Parata™ IntelliVault™

RFID-enabled controlled substance management system that provides secure storage and automatic tracking of controlled substance medications.

Automated Dispensing Units

BD Pyxis™ MedBank

Supports first-dose and emergency medication management, helping to increase charge capture, lower inventory spending, and improve regulatory compliance.
