

Parata PASS™ 300VP Variable Pouch Packager

Key Features

Scalability: Smart canisters extend capacity beyond the standard configuration. Store additional canisters outside the unit and swap them in as needed.

Efficiency: Auto canisters allow for easy swapping between drugs for changing fomulary, while also dispensing partial pills.

Intuitive Software: Flexible and easy to use, Parata PASS Ware® software offers a wide range of reporting, and a drag-and-drop editor to customize pouch design, and the ability to include header, footer, and reminder pouches.

Variable Pouch Sizes: With multiple selections available, pouch size can change for each batch.

Capacity

Up to 300 canisters (or unique NDCs) at one time

Pharmacy Software Integrations

Parata integrates with nearly 100 host systems
