

Parata™ PASS™ 300VP

Pouch Packager

As your patient volume grows, **you need a solution to power** an adherence program that can help to reduce the cost of care, improve patient outcomes, and keep your facility top of mind.

Parata

Adherence packaging that moves the needle

The Parata™ PASS™ 300VP pouch packager gives you the added flexibility to support a robust adherence packaging program with fully customizable medication pouches.

Highlighted Features:

- Minimize downtime with easily swappable lower packaging unit.
- Variable pouch sizes give you the option to customize sizes for each batch.
- Auto canisters allow for easy swapping between drugs for changing formulary and dispensing partial pills.
- Snap canisters can help increase dispensing accuracy, minimize pill waste, and allow for quick and easy drug exchanges.
