

Parata™ PASS™ 36

Pouch Packager

As you work **to make medication management easier** for your patients, work smarter by automating your adherence packaging process with fully customizable medication pouches.

Parata

Scalability for Growth

The Parata™ PASS™ 36 Pouch Packager offers a scalable pouch packaging solution to transform your adherence program as your business grows.

Highlighted Features:

- Smart canisters extend capacity beyond the standard configuration.
- Auto canisters allow for easy swapping between drugs for changing formulary and dispensing partial pills.
- Snap canisters can help increase dispensing accuracy, minimize pill waste, and allow for quick and easy drug exchanges.
- Parata PASS Ware™ software is flexible and easy to use. It offers a wide range of reporting, a drag-and-drop editor to customize pouch design, and the ability to include header, footer, and reminder pouches.
