

Parata™ PASS™ 576VP

Pouch Packager

Maximize the efficiency of your medication adherence program with the Parata™ PASS™ 576VP Pouch Packager. Its **technology allows you** to serve a larger patient volume with accuracy and safety.

Parata

Expand your capacity

The Parata™ PASS™ 576VP offers an extended canister capacity and optimal pouch customization for dispensing solid oral medications in both single-dose and multi-dose medication pouches.

Highlighted Features:

- Minimize downtime with easily swappable lower packaging unit.
- Variable pouch sizes give you the option to customize sizes for each batch.
- Auto canisters allow for easy swapping between drugs for changing formulary and dispensing partial pills.
- Snap canisters can help increase dispensing accuracy, minimize pill waste, and allow for quick and easy drug exchanges.
