

# Parata Stratus Pharmacy Automation Platform

Get the most out of your automation with our centralized pharmacy automation management platform. No matter the packaging modality, no matter how many machines — Stratus brings them all into view.

## Key Benefits

**Make Decisions in Real Time:** Access information to make data-driven and actionable decisions right when you need to.

**Control at your Fingertips:** Simplify management of your pharmacy's complex ecosystem with one platform to seamlessly integrate, improve, and scale your dispensing operations.

**Multi-Site, Multi-System:** Gain visibility to your entire business across multiple sites and multiple systems. Stratus brings all your data together to help you better understand and improve your operations.

---

## Put Stratus to Work for your Pharmacy

**Centralized Operational Reports:** Improve your operations and gain a deeper understanding of your production with helpful reports such as hourly pouch count and tray set downtime that can be viewed by site or packager and filtered by time or date.

**Pharmacy Peek:** See real-time statistics about your pharmacy operations, always in view, always updated.

---

**Growth Consulting:** Your Parata team is available to help you interpret the reports and make recommendations to boost your business.

# Parata Stratus Analytics

## Standard Reports

Access a variety of reports most used by pharmacies to monitor machine production.

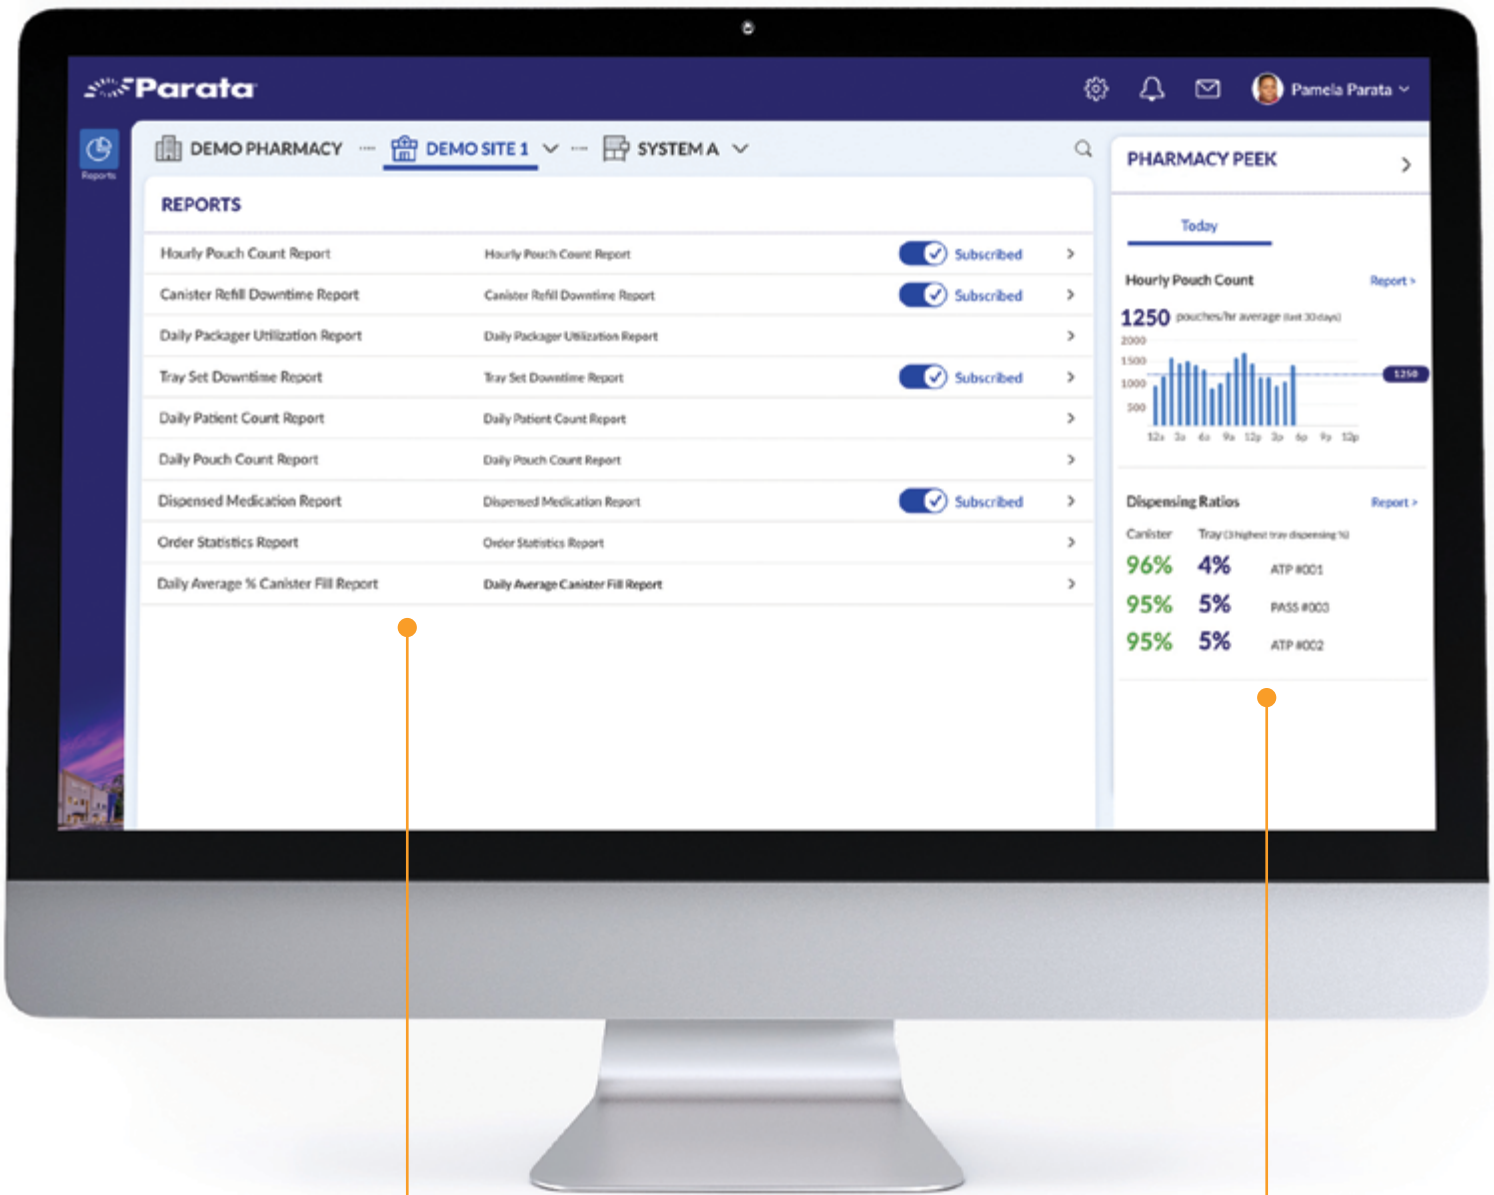

Subscribe to individual reports and receive daily emails for the most focus on your pharmacies needs.

## Pharmacy Peek

Your pharmacy's production metrics at your fingertips.

Metrics include:

- Dispense history by the hour
- Down Time
- Dispensing utilization (Canister vs: Tray)
