

Parata HD Stock™

High-Density Storage

HD Stock™ - The Pharmacy of the Future, Today

HD Stock, by Parata, is a precision-engineered, high-density storage product line that will help your pharmacy become more organized, reduce your inventory footprint, and speed up your script-filling process. HD Stock has been specifically designed to store medications, paying special attention to ergonomics and functionality. The result is a completely logical storage system that's extraordinarily convenient to use. No other system offers you drawers that can store more items within the same space.

Why HD Stock?

- Reduced footprint and reduction in inventory
- Promotes first-in, first-out inventory management, reducing expired medications and open bottles
- Increased work surfaces while reducing storage footprint
- Generate additional revenue from the gained space
- LED lights on workstations illuminate the workspace and is more ergonomic
- Less walking - Faster script filling
- Unique divider system reduces the risk of errors
- Clean, modern, and organized appearance
- Fixtures are mobile for future re-configuration

HD Stock™ - The Pharmacy of the Future, Today

Improve Efficiency and Optimize Pharmacy Space

HD Stock's uniquely tailored combination of high density storage and compact workstations mean more usable space in your pharmacy and more efficient, orderly processes.

Shrink your Storage Space When Using HD Stock Solutions

The right layout makes it easy to deliver a greater number of services such as MTM and consulting areas more efficiently than ever.

Enhance the Total Customer Experience

The modern, clean design, and improved organization achieved with HD Stock, makes your pharmacy more efficient and improves its appearance.

HD Stock™ - High Density Cabinets

HD Stock™ Cabinets provide the most medication storage per square foot. It is excellent for all bulk medications including liquids. This can also be used for hazardous medication storage. Holds up to 1,100 items per cabinet.

Organization

Clear clips hold medication information to identify medications. Drawer dividers separate meds and sub-dividers segregate open bottles.

Security

Manual locks prevent unauthorized access to control or high-dollar medications.

Clean

Steel mesh drawer bottoms minimize pill dust accumulation, reducing irritants and contamination. Withstands bleach or hydrogen peroxide cleaning.

Vision 1 drawer front option (above)

Vision 2 drawer front option

Speed Shelves

Speed Shelves store the pharmacy's fastest moving medications. The 2-bay stores up to 180 SKUs/600 items, or 70% of Rxs. The 3-bay stores up to 270 SKUs/900 items, or 80% of Rxs.

Organization

Durable powder coated dividers clearly separate different meds. The dividers can be easily set to a variety of widths to store differently sized packages. Sub-dividers hold the open bottle in the front.

Efficiency

Speed shelves are designed for the compact and neat storage of fast moving medications.

Inventory

Speed shelves pull down for stocking from the back; facilitating first-in, first-out inventory management.

HD Stock™ - Workstations

Workstations provide high-density storage and a counter-top for workspace. Accommodates 120 SKUs/400 items in a 1-bay, 240 SKUs/800 items in a 2-bay, and 360 SKUs/1,200 items in a 3-bay configuration.

Available in 1-, 2- & 3-bay configurations

Speed Shelves

Speed shelving combined with much needed work space. Optional flat shelves available for bigger bulk items.

Ergonomic

The large bottom drawer and sloping speed shelves minimize bending and reaching. LED lights enhance visibility on the counter-top work surface.

Drawer Storage

Medications stored under the counter-top are organized exactly as the high-density cabinet. Dividers keep items separate and double-height drawers can be used for storing large items.

High Profile

The High Profile is a marriage of the Speed Shelf and the Cabinet drawer storage. 1-bay – 200 SKUs/500 items, 2-bay – 400 SKUs/1,000 items, 3-bay – 600 SKUs/1,500 items.

Speed Shelves

Provides all the benefits of speed shelving with ease of stocking items for first-in, first-out inventory management.

Drawer Storage

More drawers than a workstation, but with the addition of speed shelves. A storage option for a diverse range of products, with the added benefit of a closed system keeping contents free from dust.

Dividers keep items separate and double-height drawers can be used for storing large items.

HD Stock™ - Bulk Shelving

The Bulk Shelving fixture includes fixed shelves for bulk box storage such as pre-pack unit dose liquid cups, boxes of vials, IV bags, etc. Accommodates 40 SKUs/160 items in a 1-bay, 80 SKUs/320 items in a 2-bay, and 120 SKUs/480 items in a 3-bay.

Adaptable

If your workspace requirements change, you can easily rearrange the flat shelves to different heights.

Quality

All frames and flat shelves are made of powder-coated steel that guarantees an extremely long life.

Strength

Depending on the fixed shelf selection, shelf load capacity is up to 55 pounds.

Available in 1-, 2-, and 3-bay configurations

Carousels

Carousels are excellent for unit dose pre-packed items, and unit of use items in all pharmacy settings. The small or large carousel maximizes storage in corners and allows multiple techs to fill simultaneously. Small carousel holds 480 SKUs or 1,200 items, while the large carousel holds 600 to 1,200 unit dose bins.

Multiple Access

360° access to products with independently rotating shelves enables efficient and simultaneous picking or filling from different sides by multiple users.

Inventory

Easy restocking by opening a gap between storage segments, which are held together with patented magnetic mechanism. Supports the 'first-in, first-out' principle as you stock the sloping tray channels from the back.

HD Stock™ - Expand your Business Without Expanding your Space

Parata has an HD Stock™ high-density fixture solution for all your storage needs, regardless of your pharmacy's footprint. The six different fixture types can address any space constraints and workflow.

VS:

16 Traditional

Traditional bookshelf style fixtures create inefficient workflow, waste space, and detract from your pharmacy's professional image.

1 HD Stock Cabinet

HD Stock creates new space in your pharmacy to enhance your revenue while improving efficiency and workflow, holding up to 1,100 items per cabinet.

Add Beacon® and Gain Inventory Management

Upgrade your HD Stock fixtures to Beacon, a one-of-a-kind inventory management system that integrates with your pharmacy information system. Using barcode-driven technology, Beacon tracks your entire formulary down to the pill level. Beacon's extensive reporting capabilities provide information on excess inventory, soon to expire medications, inventory cost and more; all the information to manage your inventory.

Why Beacon?

- Reduction in inventory and expired meds
- Quicker fill times with improved accuracy
- Management of generic swaps
- Full perpetual inventory at-a-glance
- Control medication handling
- Increased inventory turns
